

# **TT-388**

# Oil temperature control unit

High temperature device with high functionalityavailable as 2-circuit device

 $\bigcirc$ 

#### Oil up to 360°C

Heating capacity 16 kW | 24 kW

Cooling capacity 90 kW @ 360°C

Cooling system indirect

Applications: moulds, rollers, plates

#### **Functions**

- Self-optimizing temperature controller with temperature display 1/10°C – steps
- Display in °C or °F and I/min or gal/min
- Digital flow display and monitoring
- Automatic temperature control
- Switchover for temperature control on the mould
- Heating switchable in stages
- Heaters with cascade connetion (only 24 kW)
- Pressure display
- Automatic mould drainage
- Leakstopper device operation in pressure and vacuum mode possible

#### Construction

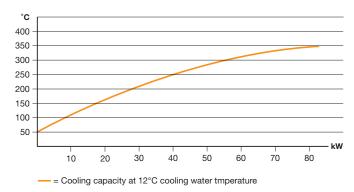

- · High temperature pump with mechanical seal or magnetic coupling
- Hot oil circuit with bypass, which ensures the internal oil circulation when the valves are closed
- Limescale free heat exchanger
- No cracking of the oil thanks to special heating construction
- Expansion tank with drip pan
- Unit on castors

#### Safety features

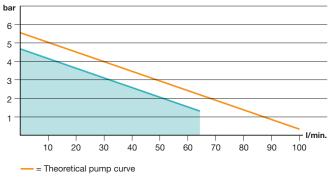

- Level control for dry run protection
- Expansion vessel with safety shut-off in case of overflow
- Electronic temperature limitation and monitoring in the controller
- Mechanical safety thermostats
- · Visual and acoustic fault indications
- Integrated circuit breakers
- · Main switch, transformer and motor protection switch

### **Cooling capacity**

**Pump capacity** 

---- = In practice achievable values permanent internal bypass considered

## **Technical data**

| Product attribute                    | Unit | TT-388 16 kW   | TT-388 24 kW         |
|--------------------------------------|------|--|----------------------|
| Temperature range                    | °C   | Up to 360°C with heat transfer oil TOOL-THERM SH-3   |                      |
| Temperature control                  |      | Self-optimizing, electronic microprocessor controller MP-888 with digital display of the set and actual value. Automatic temperature monitoring. |                      |
| Flow control                         |      | Electronically, with digital display and automatic control of the minimum flow.  |                      |
| Heating capacity                     | kW   | 16 kW  | 24 kW                |
| Switchable in stages                 |      | 8/6  | 8/16                 |
|                                      |      | Automatic switching of the required heating po   | wer                  |
| Cooling capacity                     |      | 90 kW at 360°C circulating temperature – see diagram   |                      |
| Pump capacity                        |      |  |                      |
| Motor                                | kW   | 1,8 kW   |                      |
| Pressure mode                        |      | Max. 5,5 bar / max. 100 l/min see diagram  |                      |
| Vacuum mode                          |      | Vacuum max. 8 mH <sub>2</sub> O  |                      |
| Model Z                              |      | Pump with axial face seal and triple bearing system  |                      |
| Model A                              |      | Pump with seal less magnetic drive   |                      |
| Temperature measurement at the mould |      | Yes  | Yes                  |
| Leakstopper and mould drainage       |      | Yes  | Yes                  |
| Expansion tank capacity              |      | 21 litres  | 21 litres            |
| Filling amount                       |      | 15 litres  | 21 litres            |
| Expansion volume                     |      | 16 litres  | 16 litres            |
| Connections                          |      |  |                      |
| Oil circuit                          |      | 3/4" BSP female thread   |                      |
| Cooling water                        |      |  |                      |
| Inlet                                |      | With water filter 1" BSP female thread   |                      |
| Outlet                               |      | With non-return valve 1" BSP female thread   |                      |
| Dimensions (L×W×H)                   | mm   | 1'240x480x1'400 mm, incl. castors  |                      |
| Weight                               | kg   | Approx. 205 kg empty   | Approx. 215 kg empty |
| Colour                               |      | Silvergrey RAL 7001  |                      |
